

# TEA ROSES

[www.dundeenursery.com](https://www.dundeenursery.com)

## Rose types:

1 - **HYBRID TEAS** - The most widely grown modern rose. A long, slender bud will open into one blossom (usually double petaled) on each straight stem, making hybrid teas excellent cut flowers. Hybrid teas bloom from early summer to frost and come in a wide variety of colors. Most have a nice scent and grow 2'-4', although some approach 6'.

2 - **FLORIBUNDAS** - Flowers are borne in clusters on each medium-length stem. The flowers are medium in size and come in many colors. Floribundas usually grow 2'-3'. They bloom from very late spring until frost. Many are very fragrant and most are fairly disease resistant.

3 - **GRANDIFLORAS** - These are a cross between hybrid teas and floribundas. Long stems and the flower form of the hybrid tea combine with the abundant bloom of the floribundas. Most grandifloras bear their flowers in small clusters. They grow 3'-6' tall. Most are not as fragrant as other rose types.

VARIETY	HEIGHT	SPREAD	BLOOM	FRAGRANCE	FLOWER SIZE	PRICE
<b>ACADIA SUNRISE</b> (Floribunda)	4' (1.22 m)	3-4' (91.44 cm - 1.22 m)	Orange Full	Light	5" across (12.7 cm)	\$24.99
